## **Press release**

### **Eiffage becomes sole shareholder of the Millau Viaduct concession company**

Eiffage has signed a purchase contract for the 49% of the Millau Viaduct concession company formerly held by Banque des Territoires (Caisse des Dépôts Group).

This negotiated €236.5 million acquisition, financed from available cash at hand, enables Eiffage to become the sole shareholder of the Millau Viaduct concession company.

This is a sign of Eiffage's attachment to this major work of 21st-century architecture, built by the Group in just three years as part of a concession contract ending in 2079. Eiffage has operated the Millau Viaduct since it was commissioned in 2004.

This new acquisition further enhances the Group's concessions portfolio.
